

DR. DANIEL Kraft

As a Stanford and Harvard trained physician-scientist, inventor, entrepreneur, and innovator, Daniel Kraft explores the future of health and medicine — and where technology can take us.

With over 25 years of experience in clinical practice, biomedical research and healthcare innovation, Dr. Kraft has served as Faculty Chair for Medicine at Singularity University and is the Founder and Chair of Exponential Medicine, a program that advances convergent, rapidly developing technologies and their potential in biomedicine and healthcare.

Dr. Kraft is also the inventor of the MarrowMiner, an FDA-approved device for the minimally invasive harvest of bone marrow, and founded RegenMed Systems, a company developing technologies to enable adult stem cell based regenerative therapies.

At Impact2020, you'll learn more about Dr. Kraft's groundbreaking approach for personalized, precise, on demand medicine. You don't want to miss this dynamic presentation on upcoming innovations in medicine, powered by new tools, tests, and apps that bring diagnostic information right to the patient's bedside.
